

# AS 17 ANTI SLIP SOLUTION

ACID CLEANER CUM TREATMENT FOR HOMOGENEOUS TILE & STONE SURFACE.

## Product Description:

1. Suitable for Homogeneous Tile, Cement Floor, Marble, Granite and Pebble Stone surface.  
(Not suitable for thin printed pattern ceramic tile, as it will etch away the printing.)
2. This etching treatment is an invisible floor treatment (not a coating), the effects of which can only be seen under a microscope.

## Application Instruction:

1. AS 17 will clean and treat tile surface in one application
2. For a small area applications, use brush to apply by spreading the solution from left to right, move down, then spread the solution from right to left, alternating as such until the area is covered. Then, going back to the starting point, spread the solution all the way down, move right, spread it all the way up, and so on same like crisscross method.
3. For large area applications, use microfiber mop, pour the solution into a bucket, let the mop soak into the solution, squeeze it and apply on the surface by mopping as same like above crisscross method.
4. Leave it for 10-15 minutes, after the treatment, the floor should be immediately rinsed with clean cold water to ensure no chemicals remain on the surface.
5. Over treated, the floor will be roughen, tendency to trap dirt and stain easily.

## Maintenance after the Treatment:

1. Simply keep it free of dirt and oil.
2. Do not apply wax or apply glossing solutions containing wax to a treated floor.
3. Wax will increase the chances of slip and falls..

**Coverage:** 16 m<sup>2</sup> / liter

## Precautions:

**Corrosive.** It will corrode Stainless Steel, Aluminum and Glass.  
It will whiten the black color tiles  
Keep away from children.

## Restriction:

**For sales to the contractor with full precautionary instruction given.**  
**Not for sales to the consumer.**
