PRODUCT FEATURES

X269 Granite Rust Remover is a specially formulated rust removal agent. Its low-acid formula ensures it does not damage stone materials.

Deep Rust Removal
Penetrates into pores for thorough rust elimination.

Strong Oxidation
Strong oxidation for deep rust removal.

Safe Formula
Mild acidic composition, suitable for marble surfaces.

Fast & Efficient
Fast-acting and highly efficient for professional use.

Professional Grade
High cost-effectiveness, designed for granite characteristics.

VISIBLE RESULTS

Effectively removes rust stains without damaging the stone surface.

SUITABLE FOR

Granite

Ceramic Tiles

 Not suitable for marble surfaces.

HOW TO USE

1 Clean the surface
Remove dust and loose dirt.

2 Apply the product
Apply directly to the rust stain.

3 Scrub gently
Use a brush or pad to scrub the stain if needed.

4 Rinse thoroughly
Rinse with clean water and dry the surface.

5 Repeat if necessary
For stubborn stains, repeat the process.

Note: Always test on a small, inconspicuous area before full application.

ATTENTION

- For granite use only. Do not apply on acid-sensitive stones such as limestone, travertine, or on non-stone surfaces.
- Always perform a small test area before full application.
- Avoid prolonged contact beyond the recommended dwell time.
- Wear appropriate personal protective equipment (PPE), including gloves.
- Avoid contact with skin and eyes. In case of contact, rinse immediately with plenty of clean water.
- Ensure adequate ventilation during application.
- Do not mix with other chemicals.
- This product will expand when heated. When stored for an extended period, please loosen the bottle cap to allow air to circulate. Keep it away from heat sources and store it in a shaded, cool area below 50°C.
